

SYED ZAROON ALI CHISHTI

SHOPIFY DEVELOPER | MERN STACK DEVELOPER | E-COMMERCE & FULL-STACK SPECIALIST

Lahore, Pakistan | zaroonalichishti@gmail.com | 0305-6529811 | LinkedIn | Portfolio | GitHub

SUMMARY

Results-driven Shopify Developer and MERN Stack Developer with 3+ years of experience designing, building, and optimizing high-converting Shopify stores, headless storefronts, and full-stack MERN web applications. Skilled in Shopify Liquid, Shopify CLI, Shopify Hydrogen, GraphQL, React.js, Next.js, Node.js, Express.js, MongoDB, TypeScript, JavaScript (ES6+), and Tailwind CSS, with a strong track record of custom theme development, full-stack application development, third-party app and API integration, and site-speed/Core Web Vitals optimization. Adept at translating Figma designs into pixel-perfect, responsive, SEO-friendly interfaces that improve user experience and drive conversions. Proven ability to collaborate cross-functionally with designers, marketers, and stakeholders in fast-paced, remote, and agile environments to deliver scalable e-commerce and web solutions on time.

CORE COMPETENCIES

Shopify Development • Shopify Plus • Shopify Liquid • Shopify CLI • Shopify Hydrogen (Headless Commerce) • Shopify App & API Integration • MERN Stack Development • MongoDB • Express.js • React.js • Node.js • Next.js • GraphQL • TypeScript • JavaScript (ES6+) • HTML5 & CSS3 • Tailwind CSS • SCSS • Shadcn UI • WordPress Development • Theme Customization • UI/UX Design • Figma to Shopify/Web Conversion • Responsive Web Design • REST API Development • Website Speed & Performance Optimization • Conversion Rate Optimization (CRO) • On-Page SEO • Cross-Browser Testing • Git & GitHub Version Control • Agile Collaboration • Client Communication

WORK EXPERIENCE

MERN Stack Developer — eComMinds Pvt Ltd

June 2026 - Present

- Design and develop full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js) and Next.js, building scalable, high-performance, and SEO-friendly solutions.
- Build responsive, component-based front-end interfaces with React.js, Next.js, TypeScript, Tailwind CSS, and Shadcn UI, translating Figma designs into pixel-perfect, production-ready UIs.
- Develop and maintain RESTful APIs and backend services using Node.js and Express.js, with MongoDB for data modeling, storage, and query optimization.
- Implement authentication, authorization, and third-party API integrations to extend application functionality and support business requirements.
- Optimize application performance, load times, and Core Web Vitals across front-end and back-end layers.
- Collaborate with designers, product managers, and stakeholders in an agile workflow to scope, estimate, and deliver full-stack solutions on schedule.
- Use Git and GitHub for version control and collaborative development across multiple concurrent projects.

Shopify Developer — eComMinds Pvt Ltd

Jan 2024 - June 2026

- Designed, developed, and customized Shopify and Shopify Plus themes end-to-end using Liquid, HTML5, CSS3, and JavaScript, translating client requirements and Figma designs into pixel-perfect, conversion-focused storefronts.
- Architected and maintained headless Shopify storefronts using Shopify Hydrogen, React.js, TypeScript, and GraphQL, delivering faster page loads and richer, app-like shopping experiences.
- Integrated third-party Shopify Apps, REST/GraphQL APIs, and custom backend functionalities to extend store capabilities, including checkout customization, inventory sync, and payment/shipping integrations.
- Audited and optimized Shopify stores for site speed, Core Web Vitals, mobile responsiveness, and accessibility, directly improving user experience and search engine performance.
- Built reusable custom sections, dynamic templates, and modular components in the Shopify theme editor, reducing development time on future projects and enabling non-technical clients to self-manage content.
- Developed and maintained custom WordPress websites and themes, ensuring responsive design, cross-browser compatibility, and on-page SEO best practices.
- Partnered with designers, marketers, and project managers in an agile workflow to scope, estimate, and deliver scalable eCommerce and web solutions that align with business goals and deadlines.
- Diagnosed and resolved complex Shopify theme, app, and front-end bugs, maintaining high store uptime and a smooth, bug-free customer experience.

- Used Git and GitHub for version control and collaborative development across multiple concurrent client projects.

Ecommerce Manager — LahoreBay

Oct 2022 - Dec 2023

- Managed end-to-end product catalog structure, listings, and merchandising strategy for a growing Shopify-based online store, ensuring accurate, SEO-optimized, and conversion-ready product pages.
- Planned and executed data-driven initiatives — including on-page SEO, keyword optimization, and UX improvements — to grow organic website traffic and improve on-site engagement.
- Monitored store performance, customer behavior, and engagement metrics using analytics tools to identify opportunities that improved conversion rate, operational efficiency, and revenue growth.
- Coordinated with developers and designers to prioritize store updates, seasonal campaigns, and promotional launches.

WordPress Developer (Remote) — Jachoos Technologies Pvt Ltd

Sept 2021 - Nov 2022

- Owned the end-to-end WordPress website development lifecycle — planning, custom theme/plugin implementation, testing, and deployment — for multiple client projects.
- Built responsive, mobile-first WordPress websites following SEO best practices, improving site speed, search visibility, and cross-device usability.
- Communicated directly with remote clients to gather requirements, provide progress updates, and deliver high-quality, on-brand websites within scope and deadline.

WordPress Developer — ESOLS Pvt Ltd

Jan 2021 - June 2021

- Developed and maintained multiple WordPress websites with a focus on responsive design, cross-browser compatibility, and on-page SEO best practices.
- Collaborated with a small team to troubleshoot front-end issues and continuously improve site performance and user experience.
